PROFESSIONAL SUMMARY

Information Technology undergraduate (B.Tech, 2027) with internship experience on Zoho's Healthcare team, building CRM workflows, Deluge custom functions, and API-based record operations. Skilled in full-stack development with Python, FastAPI, React, and MongoDB, and in machine learning-based security analytics. Strong at turning requirements into working features and debugging them until they run reliably.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, Deluge, HTML5, CSS3
Zoho & CRM: Zoho CRM, Zoho Books, Zoho Forms, CRM Workflows, Custom Functions, Lookup Fields, Zia
Backend & APIs: FastAPI, Node.js, Express.js, REST APIs, API Integration, Pydantic
Frontend: React.js, Vite, Tailwind CSS, Bootstrap
Databases: MongoDB, PostgreSQL
Machine Learning: Scikit-learn, XGBoost, Isolation Forest, SHAP
Tools & Cloud: Git, GitHub, Docker, Linux, Postman, Playwright, VS Code, Figma, AWS Foundations
CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Networks

EXPERIENCE

CRM Intern – Zoho Healthcare Team Jul 2026 – Aug 2026
Zoho Corporation Pvt. Ltd. *Chennai, Tamil Nadu*

- Configured Zoho CRM modules, lookup relationships, and workflow logic to connect business processes across records.
- Wrote Deluge custom functions and used Zoho CRM APIs to search, retrieve, create, and update records; debugged errors using execution logs.
- Used Zoho Forms for data collection alongside CRM workflows and worked with Zoho Books to understand enterprise business requirements.
- Developed SkillBridge, a CRM-based placement management system covering student, job opening, and application records.

PROJECTS

SkillBridge – CRM-Based Placement Management System Zoho Internship Project
Zoho CRM, Deluge, CRM APIs, Zia
GitHub: https://github.com/Praveenkumar-2006/SkillBridge

- Designed CRM modules and lookup relationships linking student profiles, job openings, and application records.
- Developed Deluge functions that evaluate application eligibility by comparing student CGPA with job-opening requirements.
- Tested custom functions and workflows through Zoho CRM APIs; used Zia for read-only retrieval of CRM information.

CloudShield IQ – Multi-Cloud Security Risk Assessment Platform 2026 – Present
Python, FastAPI, PostgreSQL, React, TypeScript, Scikit-learn, XGBoost, SHAP, Docker
GitHub: https://github.com/Praveenkumar-2006/Cloudshield-IQ

- Developing a platform that assesses cloud security risks, detects anomalous activity, and monitors compliance through a centralized dashboard.
- Built data validation and normalization pipelines with a rule-based risk engine, plus Isolation Forest (anomaly detection) and XGBoost (risk classification) models with SHAP explainability.
- Implemented compliance checks against defined security controls and a recommendation engine that provides remediation guidance.
- Built FastAPI services with PostgreSQL persistence and a React and TypeScript dashboard; containerized components with Docker and added Playwright tests for frontend workflows.

LYF-Sync – AI-Powered Schedule Planner Apr 2026
Python, FastAPI, React, Vite, Tailwind CSS, Google Gemini API, Pydantic
GitHub: https://github.com/Praveenkumar-2006/LYF-Sync

- Built a full-stack application that generates personalized daily and weekly schedules from user routines, preferences, and time constraints.
- Developed FastAPI endpoints with Pydantic validation and scheduling logic for time-block allocation, routine management, and commute time.
- Integrated Google Gemini API for AI-assisted scheduling; built a multi-step onboarding flow and an interactive React dashboard for weekly plans.

EDUCATION

Bachelor of Technology in Information Technology 2023 – 2027
Rajalakshmi Engineering College
